JULY BARGAINS

OFFERED BY THE

PEOPLE'S STORE

THIS WEEK.

We told you last week that we must sell goods. It is imperative for us to do so. We have to dispose of $40,000 worth of goods by the 15th of August. We never have failed in our expectations yet, for our forced prices are irresistible. Hence we cannot guarantee that the goods offered below will last the entire week. If you do not wish to be disappointed come early.

All qualities of lawns sold under 12½c have been reduced to 5c. We expect they will last until Tuesday evening.

Striped Linon de Inde, sold at 27c all season, now marked at 15c.

Lace striped "d'Odorah" (white Victoria lawns) selling at 37½c, now 20c.

Flannel "Carreau de Organdie" sold at 35c, will be closed at 18c. One case only left.

Our entire line of Summer silks that we have sold all season at 65c, tumbled down to 39c.

All-wool Nun's veilings, Nun's cloth, albatross and crepes, that commanded $1 readily, descend to 65c.

Summer dress goods worth 20c will be sold for 7½c.

Hosiery department will sell ladies full finished hose, plain and silk docked at 55c, which you have been paying 50c for.

Ladies' underwear department will lead on silk-finished balbriggan vests long and short sleeves, 50c. Never sold less than $1.

Our gloves, in silk, lisle and cotton, have almost gone out of sight. For instance, silk mitts before the Fourth 75c, are now 45c. A splendid assortment of lisle thread gloves at 25c.

Boys' percale waists 25c, worth 50c.

Window shades, with fixtures complete, 49c.

Gents' Summer merino vests 15c. They will surprise you.

Our shoe department, always the cheapest in town, says it can undersell anybody by 20 per cent. That's doing a good deal of talking; sounds wild. But when you see ladies' low slippers marked 75c that others call a sacrifice at $1.25, and children's tipped spring heel shoes for 88c, that others ask $1.50 for, while children's Newport Ties sell at 49c, others giving them away at $1, and ladies' shoes $1.25, worth $2, that kind of goods give color to the tale.

Stare at These Prices! They're a Good Eye-Opener.

The Stutzman Improved Fruit Evaporators

Are for Sale and on Exhibition at the Storerooms of the

C. W. GIBSON COMPANY,

108, 110 and 112 North Main Street, Los Angeles, Cal.

Fruit orchardists and farmers especially are invited to examine the machines and get Catalogues and prices.

The Stutzman Evaporator is made of galvanized iron and hence is fire-proof. The Trays are wire gauze. There's nothing shoddy in its construction. It is more easily moved about than any other Evaporator in the market. The above is of great advantage to the fruit dryer. In simplicity of construction and durability it surpasses and in cheapness nothing of the kind can compete with it. Made in all sizes, from stove to large factories. jun26

AMERICAN FRUIT EVAPORATOR!

The most practical and reliable Fruit Evaporator made. It gives unobstructed hot air currents ABOVE and BELOW all fruit, thus insuring evenness of drying and no spoiled fruit. Beware of infringements. THE AMERICAN is pre-eminently the fruit-raisers' machine. Its sizes grade from domestic to manufacturing wants. It makes the highest quality of work with ordinary care in handling. There is no need of making anything else. Though we approve a slight use of sulphur, the AMERICAN is specially adapted for highest grade in unbleached work. It places fresh cut fruit first in highest and dryest heat; cures cut surfaces at once and keeps them dry, thereby setting and making permanent the color, and also thereby, as in broiling steaks, securing the highest quality in product. We place our apparatus at the disposal of our customers. In some cases this gratuitous service is of more value than prices paid us for evaporators. Sold by

CHRONIC BRONCHITIS.

Bronchitis is an inflammation of the mucous membrane of the bronchial tubes, and is one of the most prominent of the pulmonary affections. Chronic bronchitis more often appears later in life. Then a cold settles on the lungs the disease either ends in bronchitis or pneumonia. If it ends in bronchitis it usually first takes a cold on the chest, and still the patient does not feel entirely well. He feels tired and languid, and is incapable of doing his usual amount of exercise, and experiences a shortness of breath, with more or less pain in some part of his back or chest. Soon after this a cough appears, accompanied by an expectoration of thick mucous, followed by a hectic flush, loss of flesh and strength, and night sweats continue, when the patient assumes all the appearance of having a positive case of consumption. But this is simply catarrh of the lungs or chronic bronchitis.

In the later stage of the disease the mucous membranes of the larger bronchial tube surface, while in the smaller tubes an air cells of the lungs the mucous membrane becomes emphysematous and inflamed. There are ulcerative or tubercles in the lungs, but merely a swelling away of the larger bronchial tubes and the cough takes place on the obstruction of the bronchial tubes and air cells of the lungs. The breath becomes offensive and exhausting, being unable to expectorate the mucous which accumulates in the passages leading to the lungs, while in some cases the expectoration is small in quantity, but more commonly copious, and of a light straw or yellowish green color. Sometimes streaks of blood make their appearance. In the latter stages there is a disagreeable smell. Persons thus afflicted are liable to take cold, at which time the mucous membrane lining the throat, nose and lungs becomes more or less swollen, and the cough is worse. If these attacks

Bronchitis (from humor, to be moist), is so called from the profuse quantity of watery secretions which comes from the air passages of the lungs. At times it becomes quite ropy, like the white of an egg. This form of the disease usually attacks old people.

Dry Bronchitis—This disease, the very opposite of the foregoing, is a very common affection. Very many people who regard themselves quite healthy are to-day under its influence, and are slowly but surely becoming the victims of this treacherous complaint. This is by the most insidious of all pulmonary diseases. There may at first be a slight, hacking cough, and an expectoration of a whitish-white mucous, also tinged with the color. This mucous, inhabiting the air cells of the lungs, has difficult to raise, after a time becomes solidified, permanently obstructing portions of the lungs, causing shortness of breath and a feeling of oppression on the chest, pecliar, early minor meals or on slight exertion. After a time the cough becomes more severe and comes on in paroxysms, and as the shortness of breath increases, it assumes the hoarse character of asthma. The mucous membrane also becomes more and more thickened, which gives difficulty in respiration, and the patient at last becomes fully aware of the terrible fact that have taken place, and the inevitable results that are to follow; viz: "A slow and certain death." And yet all the above diseases are quite curable if taken in time.

I have been so many of those cases cured by inhalations that I do not consider any case hopeless until the disease has advanced to the last stage. The lungs are actually dissolved, and even then our only hope is in the inhalations, which, while aids as in disarming the mucus and in counteracting and healing the cavities, which nothing else can do with the same success.

The Times.

Office—Temple, Main and New High.

SIR ARTHUR SULLIVAN, one of the authors of Pinafore, is on his way to Los Angeles.

WE shall look with much interest for the appearance of the report on International Commerce, prepared by Joseph Nimmo, jr., late Chief of the Bureau of Statistics. The report will discuss, among other things, the commercial, industrial and transportation interests of the Pacific Coast, giving due weight to the railroad problem.

THE San José Mercury has an able editorial built with laborious care and careful laboriousness upon the false text that "Los Angeles has five hundred empty dwelling houses." The Mercury's premises being wrong, its whole logical structure falls violently to the earth, and, like the jointed snake when struck on the back with a big club, flies into "more nor forty thousand pieces."

STATISTICS show that the wheat crop of the United States will this year fall short 193,000,000 bushels. The crop of Europe is short 75,0000,000 bushels. Russia is also very short, there having been a drouth in the southern provinces, with an almost total failure of crops. At this date it looks as if the bottom of low prices for wheat had been touched, and that farmers might reasonably expect a gradual strengthening of the market in the future.

AND now the New York Tribune comes down heavy on the silk worm. The great moral agriculturist who wears the shoes of Horace Greely, declares that the silk industry is petty and degrading, and suited only to half animal peons. This editor evidently hasn't got worms, but we'll bet that his wife has. He has some home some day about dinner time, and while fooling around the back shed, has reached into that box to see what was underneath the mulberry leaves, and— Ugh!

THE Santa Barbara Daily Press has entered upon its nineteenth volume, and takes occasion to remark upon the event, with pride, as follows: "In every respect the Press is now on a sound substantantial footing—never before in its whole history has it been on as good a financial basis; there is not a dollar of indebtedness that cannot be liquidated at sight." The TIMES is glad to know this, and congratulates its estimable cotemporary on the Zenith City upon the deserved fact. The Press is Santa Barbara's reliable stand-by in the newspaper line. It has outlived all of them.

As a result of a long-continued drouth, there is a general failure of crops in Southern Russia. The southern provinces are the principal wheat-producing sections of Russia. In the markets of the world Russia is the principal competitor of the United States in breadstuffs. The failure of the Russian crop this year must exercise a powerful influence in the English markets and [illegible] for wheat and flour will doubtless rise high. It is an ill wind to Russia, but it blows good to the United States. Our country seems to be profiting by the misfortunes of others all along the line.

THE arrival at Wilmington of the British ship Kennebec direct from Liverpool, with a mixed cargo for Los Angeles merchants, is the initiative, we hope, of a considerable ocean traffic which our city will enjoy henceforward. The TIMES is committed to the belief that Los Angeles holds an enviable commercial position; that her advantages consist not simply in railroad distribution, but in maritime traffic; that ship and rail may here be brought together for the benefit of Southern California and the whole territory of the Southwest. Los Angeles is the natural commercial metropolis of more than Southern California. The Kennebec is likely to have many worthy successors.

THE Pall Mall Gazette is now cock of the walk among English newspapers. Its sensation has beat all previously recorded sensations, and it comes out of the flurry with a moral purpose declared and a reform inaugurated. Sir Richard Asherton Cross, Home Secretary, announced in Parliament yesterday that the government had concluded not to prosecute the Gazette. A conference for the protection of young girls, held in London, and presided over by a Member of Parliament, passed resolutions warmly eulogizing the editor and proprietor of the Gazette for his moral heroism. It was reported also that the Gazette had received complimentary letters from the Queen and Gladstone, but this report was subsequently denied. The Archbishop of Canterbury, the Bishop of London, Cardinal Manning and the Hon. Samuel Morley, M. P., have consented to act as a committee of investigation on the charges preferred. Before this committee the members of the Gazette's investigating corps are to appear, under oath, and submit all of the evidence of crime collected by them. Somebody is going to be "told on." There is no doubt that the Gazette is complete master of the situation. Any English nob in or out of Parliament who attacks the Gazette for its course will get himself disliked, and perhaps mistrusted.

The Unhappy Family.

There is much "music in the air," but of a rather discordant nature, over the recent appointments of Deputy United States Revenue Collectors by the Hon. Asa Ellis. It is rumored that the Hon. Asa has broken the hearts of some of his best friends in Los Angeles by some of his selections. It is said that one of the would-be office-holders, who has nothing but a broken promise to show for the time and money spent in the good cause, has addressed a recital letter to the Collector, upbraiding him for his breach of faith, and expressing the hope that the person who was appointed would not escape the voluntary assessment which it is understood that all the new appointees were subject to, in order to reimburse the Hon. Asa for his expense in getting the appointment. Is it possible that the good, the pure, the unadulterated party of reform would appoint a man to an important office and then permit him to assess his deputies in order to repay his expenses in securing the appointment? The TIMES believes that there must be some mistake, here, and that the Hon. Asa Ellis would not be guilty of such business.

Associated Press Dispatches to The Times.

LONDON, July 14.—The editor of the Pall Mall Gazette has received letters from the Queen and Gladstone, in which they heartily thank him for the recent exposures of the traffic in young girls for immoral purposes and assure him that he has their full sympathy in the matter.

HAVE NOT WRITTEN.

It is now denied that the Queen and Gladstone have written to the editor of the Pall Mall Gazette.

DENIES THE LETTERS.

The editor of the Pall Mall Gazette this evening denied that he received letters of sympathy from the Queen and Gladstone.

A CONFERENCE FOR THE PROTECTION OF YOUNG GIRLS.

A conference for the protection of young girls opened this afternoon in Princes Hall. The chief promoter of the conference is the Salvation Army. The Hon. Samuel Morley, (Liberal) Member of Parliament for Bristol, presided and made an address on the subject of the iniquity exposed by the Pall Mall Gazette. He declared that the condition of things in London, as revealed by that paper, was a scandal to a Christian nation. "The people must speak out, "exclaimed the orator, "if their homes are to be kept saved from this pollution. I believe there is one law for the rich and another for the poor in these matters. It should be a felony to steal a poor person's child."

Prof. James Stuart proposed a vote of thanks to the proprietor and editor of the Pall Mall Gazette, for the assistance their work has rendered to the cause of christian morality. This proposal was unanimously adopted, as was also a resolution urging Parliament to raise the "age of consent" from 13 to 18 years.

Sir Richard Asherton Cross, Home Secretary, announced in the House of Commons this afternoon, that the government had concluded it was not advisable to prosecute the Pall Mall Gazette for its recent publications.

Mrs. Booth addressed the conference, and, referring to the Queen, said: "Her Majesty's heart beats on the right side of this question. Mrs. Booth announced that she had received letters from the Marquis of Salisbury and Gladstone encouraging the work of the conference. The letters were not read. Mrs. Booth, saying she would reserve for the next meeting which is to be held in Exeter Hall next Thursday in furtherance of the movement inaugurated to-day.

A COMMITTEE OF INVESTIGATION.

The Pall Mall Gazette announces this afternoon that the Archbishop of Canterbury, the Bishop of London, Cardinal Manning and Hon. Samuel Morley have consented to act as a committee of inquiry into the charges of criminality and iniquity made by the Gazette. The committee, which is looked upon as one of the most extraordinary in the high character of its members, will begin the work of investigation to-morrow afternoon. The Gazette will place in confidence before the committees every detail of evidence gathered by the paper's reportorial commission, on which it relies to prove the existence of the wickedness attached to by the persons engaged in the Gazette investigations will appear under oath before the committee, and each will produce all the memoranda gathered by him during the several weeks of inquiry, together with all addresses, letters, portraits, descriptions and identifications of persons, conditions and agreements collected, and referring in any wise to persons directly or indirectly implicated in the disclosures made. The committee will treat confidentially all information placed before it, but will make a memorandum report as to the truth of the Gazette's revelations.

AN AMERICAN EX-[illegible]

Louis J. Jennings, formerly editor of the New York Times, has been elected to contest one of the Parliamentary districts of Stockport in Cheshire, in the Tory interest in the coming general election. In his address accepting the candidacy, Mr. Jennings advocates local self government for Ireland and an import tax of ten per cent on finished manufactured goods.

DEFENDANT.

Attempt to Rob a Pay Car.

ATLANTA, Ga., July 14.—A desperate attempt to rob the Richmond and Danville pay car was made in this city this morning. Paymaster Grosser and his cook occupied the car and expected to be moved early. About 2 a. m. the paymaster awoke and found himself travelling at forty miles per hour. The rapid travelling aroused his suspicion. He was moving up a steep grade and soon came to a standstill. Grosser climbed upon the supply car and approached the engine. When half way there he observed a man climbing off the engine.

"Where are you taking me?" said Grosser.

"To the Belt Junction," was the answer.

"What for?" Grosser asked.

"You'll find out soon enough; you're the man we want," was the reply.

At the same instant he began firing at Grosser. With bullets whistling about his head the paymaster made for his car and placed his cook to watch the door. Grosser then sprang out and ran for help. He returned in half an hour with a posse, but found the men gone. The safe contained $3000 and was not molested. Three men were seen near the place where the train stopped, one of whom has since been arrested.

Another Strike in Prospect.

CHICAGO, July 14.—The announcement is made to-night that another strike is likely to occur on the West Division Railway. Of the sixteen discharged men, for whose reinstatement in the company's service the recent strike was inaugurated, all but four have returned to the company. These latter are still seeking reinstatement. It transpires to-night that Mayor Harrison has addressed a letter to the superintendent of the company recommending that he restore the men to duty. The employees will hold a meeting Saturday night to determine whether they will go out on another strike in the event that the remaining four are not reinstated.

A Tirade Against Silk Culture.

NEW YORK, July 14.—The Tribune says editorially: The raising of silk worms is petty, harassing and exhausting. It is the degradation of labor, and is fit only for peons or half animal peasants. There is not much probability that the industry can ever be raised into any importance in this country. It would not be good for the people of the country if it could be forced into temporary success.

Drouth in Southern Russia.

ST. PETERSBURG, July 14.—The long-continued drouth in the southern provinces of Russia has completely ruined crops in that section.

LONDON, July 14.—Dispatches from Russia say that harvest prospects throughout the empire are the gloomiest in appearance for many years, and unless there is a general rain forthwith, the whole crop will be lost.

Cholera Report.

MADRID, July 14.—There were reported throughout Spain, yesterday, 1,093 cases of cholera and 473 deaths from that disease. Returns from Valencia, however, are incomplete. A number of suspicious cases of illness are reported in the city of Segovia, but the authorities there refuse to admit that they are cases of cholera.

Indians Sentenced.

UTIAH, Cala., July 14.—Two Indians, Malmaquist and John Commissello, convicted of murder in the first and second degrees, respectively, last Saturday, were sentenced by Judge McGarvey to-day; the former to San Quentin for life, and the latter to serve twelve years at Folsom.

Indian Raid.

EAGLE PASS, Tex., July 14.—A ranchman named Malone brought a report to-day of an Indian raid in which fifteen Mexicans were killed last night, forty miles above Eagle Pass on the Rio Grande. An officer with a small detachment of troops was immediately sent to investigate.

The Author of Pinafore.

CHICAGO, July 14.—Sir Arthur Sullivan, one of the authors of "Pinafore" and other light operas, left here yesterday for Los Angeles, Cal., which place he visits on family business.

THE DOLPHIN STILL.

Ex-Secretary Chandler Writes Another Letter.

Defends His Action—Indirect Rebuke to Secretary Whitney.

BOSTON, July 14.—W. E. Chandler, ex-Secretary of the Navy, has written a letter to the Journal in reference to the recent opinion of Attorney-General Garland, that Roach's contract for building the Dolphin is invalid, and that payments to him are illegal and may be recovered, and that the Dolphin may be seized as security for the repayment. The ex-Secretary says: "This may seem to be an extraordinary decision, but it was not difficult to an Attorney-General who, when so requested, wiped out an amendment of the United States Constitution with the utmost promptness. Lawyers, business men and fair-minded citizens must judge of the soundness of his principles." Chandler asserts that the plans for the Dolphin's engines were designed by the Navy Department and Advisory Board, and the bidders had nothing to say about them or to do with them. He contends that it is preposterous to suppose that the Department had not the right to say to bidders: "You shall guarantee that these engines which we have designed shall produce 2000 horse-power, and shall move a ship fifteen knots in a gale of wind at sea." "Every competent and responsible shipbuilder," Chandler says, "would reply, if you wish me to guarantee results I must design the ship." The letter continues: "Let it be noted that this wicked assault upon Mr. Roach by two newly fledged Cabinet Ministers, reveling in misused power, is perpetrated solely for the assumed reason that the Dolphin has not a 15-knot sea speed, when, in fact, on every one of her several trips she has reached 15 knots. The last trip was made at sea, in pursuance of the order of Whitney, but Whitney, enraged at the result, says the sea was not high enough, and 15-knot sea-speed means 17½ knots when there is not a high sea, and upon this arbitrary assumption, the whole fabric of outrage committed by him is built." The communication concludes by saying that even the picked board organized by him (Whitney) to condemn the Dolphin, reported that the engines, boilers and main machinery appeared to be in accordance with the contract and changes made by the advisory board.

THE HEBREWS.

The Union of Hebrew Charities—Union of American Hebrews.

ST. LOUIS, July 14.—The Union of Hebrew Charities met this morning and unanimously adopted the name agreed on yesterday, for their new society, viz: The Associated Hebrew Charities of the United States." Delegates from New Orleans, Louisville, Nashville, Baltimore, St. Paul, Wilmington, Del., and Montgomery, Ala., promised that the societies they represented would join the organization. A recess was taken to enable the delegates to attend the opening session of the Union of American Hebrews.

The Congregation of the Union of American Hebrews met this morning in Harmonie Club Hall. Mr. Loth, of Cincinnati, President of the Executive Council, called the Union to order. An address of welcome was delivered by J. L. Isaacs, of St. Louis. The following permanent officers were elected: President, Augustus Binswanger, St. Louis; Vice President, David Klein, Philadelphia; Secretary, Lipman Levy, Cincinnati.

The Secretary read the report of the President of the Executive Council. The Union then adjourned to 2 p. m.

On reassembling a resolution was adopted providing for the printing and sending of proceedings to all the congregations and providing that as soon as twelve relief societies should send a favorable response the organization should be considered permanent. The convention then adjourned sine die.

TENACIOUS ROBBERS.

They Attack a Wagon Train and Fight to the Last Man.

AUGUSTA, Maine, July 14.—Particulars have just reached here of an afternoon and evening of the 4th instant, some miles above the forks of the Kennebec river. A caravan of teams belonging to a large party of Frenchmen was moving northward along the river road. The wagons were loaded with produce, liquor, tobacco, etc., and the men numbered sixty. At about 7 o'clock in the afternoon the train was suddenly attacked by a gang of thirteen river drivers, who made a sudden rush, with clubs for weapons, drove off the Frenchmen, upset the wagons, and seized upon their contents. Many of the vehicles as they considered of value. A fierce conflict followed and continued until dark set on at night. The overturned wagons were used as barricades by the Frenchmen, and this fort was several times captured and recaptured. Before the last attack was made ten of the lumbermen were stretched upon the field with wounds, either fatal or completely disabling them. The remaining three fought as desperately as at the outset, and the struggle did not end until only one remained on his feet, when he and his companions made prisoners, and are now in custody.

FALL OF THE BASTILE.

Celebration of the Event in San Francisco—In Paris.

SAN FRANCISCO, July 14.—The fall of the Bastile was celebrated here to-day by French residents by a parade through the principal streets, and by literary exercises at the Grand Opera House. It closed with a display of fireworks at Woodward's Gardens. This evening many of the large French business houses closed their doors and gave their employes a holiday.

IN PARIS.

PARIS, July 14.—Paris is celebrating the anniversary of the fall of the Bastile. Immense crowds fill the Place de la Concorde. One of the principal sights of the day was a review of the army of Paris in the Champs Elysees. Ten thousand school boys in military uniform and array marched and manœuvered in the Place National.

Bad All Around.

MONMOUTH PARK, July 14.—Weather bad, track bad and racing bad. In the mile and three-eights, for three-year-olds and upwards, Colonel Sprague had a walkover. In the three-quarters of a mile, for two-year-olds, Peru colt won, Fawn second, Letitia third; time, 1:18¾. In the mile, Valley Forge won, Chester second, Dupiex third; time, 1:54. In the mile and a quarter, Favorite won, Decoy Duck second, Bonassa third; time, 2:13¾. In the mile and a sixteenth, for three-year-olds and upwards, Little Minch won, Forester second, Whiagig third; time, 1:58. In the mile and a half, six hurdles, Sally won, Marshall second, Charley Epps third; time, 2:37.

Mining in Nevada County.

NEVADA, Cala., July 14.—Estimates based on returns from various parts of the county indicate that the total gold yield of Nevada county this year approximates four million dollars, while the yield of hydraulic mines has been reduced to a comparatively small figure. Most of the quartz mines are doing well, and a number of new ones are coming to the front. An unusually large number of moneyed operators are here this summer looking for investments, and they seem well satisfied with what they see.

A Banquet to Denby.

INDIANAPOLIS, July 14.—A banquet tendered by the citizens of Evansville to Col. Chas. Denby, the newly-appointed minister to China, took place this evening and proved one of the most enjoyable affairs ever known in this city. Two hundred guests were present. Denby responded to a toast in a speech of unusual taste and feeling. His remarks contained no political allusion of any kind. He leaves for China in a few days.

Frontier Commission.

LONDON, July 14.—The remaining members of the British-Afghan Frontier Commission, with their military escort, have suddenly struck tents, and are marching rapidly towards Herat. The reason for this hasty retirement is unknown, and the news caused much uneasiness. It is thought that there must be a grave reason for leaving the c

WEDNESDAY, JULY 15, 1885.

The Atmosphere of the White House.

The advent of the Cleveland administration to power was to be the reinauguration of the era of "Jeffersonian simplicity"—so we were promised. What are the facts? The very opposite. Take the prevailing atmosphere of the White House as an example. There is no perceptible odor of "Jeffersonian simplicity" to be detected about that building by the keen olfactories of the pilgrim Democrats who are wont to gather themselves within its exclusive environment. None to speak of.

A Washington correspondent writes that the closing of the White House against the rank and file of the Democracy during three days of each week receives earnest approval from the hotel and boarding-house keepers (for obvious reasons), but those who are thus excluded express their opinion of the innovation upon previous custom in the most vigorous and emphatic manner. "Why," said an old Western Democrat, "if General Grant when first chosen President, with all his army notions about rank and discipline, had issued an order closing the White House to those who had come to Washington to see the President on public business, how we would have howled and declared against the introduction of army methods into the administration of civil affairs. Yet here is a Democratic President who refuses to see the chosen representatives of the people except upon three days out of every seven, upon the pretense that the remainder of his time is demanded for the performance of important public duties. This may tickle dilettanti Democrats and cheer those truly good people, the mugwumps, but it don't deceive reasonable and practical men of either party. What public duties has Mr. Cleveland to perform just now requiring him to seclude himself from the people's representatives except for about twelve hours of each week? He could familiarize himself with the workings of the Government in no surer way than by meeting the representatives of the people of the facts touching the character of the subordinates who are administering public affairs, and the manner in which these affairs have been conducted. No previous administration hedged itself in as this one is doing. The fact is, Mr. Cleveland is acting as if he considered himself better than his party, as if he was ashamed of the men who elevated him to the Presidency, and acts altogether as if his one great object was to draw columns of praise from mugwump journals. The people are growing tired of this masquerading, and if it continues until Congress assembles there will be lively music for Mr. Cleveland. The fulsome praise of a few mugwump newspapers published in the East may be very soothing to the President, but that kind of strup will not sustain him next winter, when he will be trying to obtain for his administration the strong nourishment that can come only from the men who have votes to give, and who are now excluded from the executive mansion."

This is the muttering of the storm; it portends the coming of the tempest. Skipper Cleveland will do well to take in sail, if he would save his craft from being struck between wind and weather by the Democratic cyclone and knocked "galley west and crooked," to speak with offensively partisan nautical slang.

The same "airy" state of things exists in the Treasury Department, where the great O'Higgins poses as a "bigger man than old" Manning himself. The O'Higgins is only appointment clerk, but he has swelled up like a toad, and continues to swell as the weeks go by. To see him now (says a Washington correspondent) one would think him master of everything that happens in the Treasury Department. To listen to him for a few moments it would appear that he has the power to open the vaults and to scatter the treasure broadcast if he desired to do so. His latest move is in the nature of an attempt to erect a Chinese wall around the department and to direct who shall and who shall not be admitted to the building.

The other day a man called to see the appointment clerk and whispered to him a few moments, and he (Higgins) replied, "No, I can do nothing for you." There was another whisper. Higgins made a negative response. Then the caller said: "Well, sir, I will see you to-morrow." "Not if I see you first," responded the Baltimore heeler. Again there was a little whispered consultation and Higgins called a messenger. "Tell the captain of the watch," said he, "to note this man well and to see that he never enters the department again under any circumstances. If he passes a door, the watchman who admits him shall be dismissed." Mr. Higgins has bitten off more than he could chew on several occasions. This is the last. The arrogant fool seems to think because he has the custody of the applications of the office-seekers, that he is the re fore omnipotent in the Treasury Department. His tool, Captain of the Watch MacKay, was recently severely sat upon by the Treasurer, Jordan. Higgins himself was confronted by one of the men whom he had insulted a few days ago and was severely handled in the presence of Secretary Manning. But this does not seem enough for him.

He can not get over the fact that he bossed the Ninth Ward of Baltimore and he seems to think that the backing of Senator Gorman gives him the power to not only insult those who visit him in the office, but also to control all the avenues of approach to the Treasury Department. It is time this man was taught a lesson, and it is said he will be. There are intimations that he will have to go. Mr. Cleveland can't stand everything.

CITY COUNCIL.

Enough Solons for a Quorum Corralled at Last.

PROCEEDINGS OF YESTERDAY'S SESSION.

The Gas Holder Bratter—Bullmatic of School Expenses—Assessor's Report—The Chinese Cannot be Expelled—City Prisoners Must Work, Etc., Etc.

Council was called to order at 2:35 yesterday, President Miles in the chair and Councilmen Hamilton, Holbrook, Velair, French, Brown, Bullis, Sinsabaugh, Santee and McGarry present. Mr. Day got in at 3:10.

Minutes were read and approved, consuming thirty-one minutes.

REPORTS OF CITY OFFICERS.

City Auditor reported condition of the funds July 7th and 14th. Referred to Committee on Finance.

City Tax Collector reported that $4180 had been collected from 974 licenses for June. One hundred and twenty-seven were returned uncollected, amounting to $467.50. Same reference.

Superintendent of Streets reported a pay-roll of $154.50. Same reference. Also pay-roll of $160 for week ending July 11. Same reference.

The City Treasurer presented his monthly report (already published in the TIMES). Same reference.

The Clerk of the Council reported 1101 city licenses for June issued to tax collector, amounting to $4,647.50. Collected 974, amounting to $4180. Same reference.

Janjero reported work amounting to $303.25, ending June 7. Same reference.

Also for last week, $242.88. Same reference.

City Assessor reported for 1885-86, amount of personal property not connected with real estate, at $912,385; net collection of taxes, $14,888.35. Also for same term the following abstract of totals on his assessment rolls:

Real estate	$ 9,212,508
Improvements	4,370,185
Money	728,107
Personal property	2,374,190
Franchises, etc	173,915
Total	$16,458,805

Committee on Finance.

Chief of Police reported net collections from licenses, $72.75. Same reference.

Also arrests and fines for June, already published in the TIMES. Same reference.

Messrs. Hamilton and Bullis were appointed to fill vacancies on Sewer committee.

Poundmaster reported impounded for June, nine horses and one mule. Nine horses' service would be to render bills for all disbursements. So ordered.

Health officer reported births and deaths for June, already reported. Several cases scarlet fever have been reported, but it is not generally malignant, only four deaths being reported. Have notified all parties on First street sewer to make proper connections. Call attention to quality of water citizens are obliged to use for domestic purposes. Believe it a serious cause for a portion of our sickness. Ask appointment of a committee of best physicians to analyze water. Mr. Hamilton moved to carry out the recommendation. Carried. Rest of report filed.

Board of Education reported for June. Committee on Finance.

BOARD OF EDUCATION REPORTS ITS ESTIMATES.

Board of Education reported its estimate of the amounts to be required by the public schools for the current year. To provide additional accommodations actually required, it will be impossible to defer the erection of buildings on Morris Vineyard tract, Griffin avenue, East Los Angeles, and Temple street. Requested that the Council decide in the event of failure of the proposed sale of the Central school property, it will instruct the Board as to the disposition of property.

Estimated expenditures, calculated on a basis of nine months' school:

Teachers' salaries	$58,000
Janitors' salaries	4,000
Current expenses, stationery, repairs, fuel, etc	10,000
Four-room building, Morris Vineyard tract	6,400
Two-room addition, Griffin avenue	3,200
One-room addition, Temple street	1,600
Two rooms and lots near Aliso street	5,200
One room, Boyle Heights	1,600
One room, West Los Angeles, and lot	2,100
Furniture	1,500
Total	$93,600

Estimated receipts:

From State and county	$62,000
Amount required from city	31,600
Total	$93,600

To carry on the schools for ten months, as has always been done prior to last year, 10 per cent. more would be required for ad ries and current expenses or $7,200. Committee on Finance.

THE CHINESE MUST NOT GO.

The City Attorney presented the following report:

In reply to the inquiry as to the right of the city to exclude Chinese from city limits, I would respectfully report that the city has no such power, and that such action would be in violation of the provisions of the Constitution of the United States.

Respectfully, J. W. MCKINLEY, City Attorney.

Received and filed.

City Attorney also presented contract between city and T. Lyons for construction of cobble-stone gutter on Second street in front of city property. Laid over two weeks, on Dr. French's motion.

Also ordinance requiring milk wagons to be plainly numbered. Rules on printing suspended, and ordinance passed.

Also ordinance providing for employment of persons confined in city jail. Mr. Hamilton asked if the overseer of the chain gang could chain the prisoners. City Attorney said yes, if necessary to enforce discipline. On Dr. French's motion, rules on printing were suspended, and ordinance passed.

Also ordinance establishing the lines of Charity street. On Mr. Hamilton's motion, rules on printing were suspended, and the ordinance passed.

A lot of bills were referred to the Committee on Finance.

Mr. Velair was appointed to the Sewer Committee, *vice* C. R. Johnson, resigned.

REPORTS OF COMMITTEES.

Committee on Sewers reported payroll for week ending July 4th of $28.10. Referred to the Committee on Finance.

Also that the old sewer along Buena Vista street from Rock to Temple, and old private sewer coming out from New High street, are in bad condition. Recommended that the Committee be empowered to repair. Action postponed one week.

Also that sewer force has been employed for the past week in repairing and cleaning the Aliso street sewer, which is in very bad condition. Received and filed.

Also payroll for week ending July 11th, $56.31. Referred to the Committee on Finance.

THE GAS HOLDER MUST GO.

Ordinance amending ordinance regulating the limits within which gas holders and tanks may be erected, so as to allow erection at corner of Turner and Vignes streets.

President Simpkins, of the Gas Light Company, was given the floor, and said the erection of a holder at the corner of Turner and Vignes streets is necessary to supply the residences of that vicinity and would be no nuisance.

Mr. McGarry thought the holder would be an injury and grievance to the people in the vicinity where it is proposed to build it.

Five or six residents of the vicinity said they would sell out their homes at a large discount if the holder were located there.

The Clerk read the petition of Heilman, Haas & Co., and twenty-eight others, property owners in vicinity of Turner and Vignes streets, asking that ordinance 174 be so amended as to allow the Los Angeles Gas Light Company to erect a gas holder and tank there. The petitioners were convinced that the tank would not be detrimental to health or real estate values, and would distribute much among the laboring classes.

Mr. Hubbell, attorney for the protestants, spoke on the matter.

Dr. French moved to lay the ordinance on the table. He didn't think the Council should allow the poor, honest residents of that locality to be injured.

Dr. Sinsabaugh and Mr. McGarry wished the question brought to issue at once.

Mr. Santee's motion to refer to the Board of Public Works was lost.

Dr. French's motion to table was unanimously carried.

BOARD OF PUBLIC WORKS reported:

First—Asking further time on petition of Edward A. Hall for street railroad franchise. Granted.

Second—Recommendation to grant Thos. McKee and others leave to construct culvert across Virginia street, between Rowland and Pico. So ordered.

Third—On petition of J. D. Maclean for grading of Water street, near Downey avenue, recommendation that Superintendent of streets notify property owners to put street in passable condition. So ordered.

Fourth—Recommendation to grant petition of Geo. Cleiss for leave to erect watering trough corner of First and Los Angeles streets. Jo ordered.

Fifth—Resolution establishing grade of Prospect Place. Adopted.

Sixth—Resolution establishing grade of Pavilion Place. Adopted.

Seventh—Resolution establishing grade of Bellevue avenue (formerly Short street and Canal and Reservoir street) from Buena Vista street to Montreal street. Adopted.

Dr. French presented a minority report of the Board, signed by himself, roocommending that the City Attorney draw an ordinance reducing the width of Buena Vista street, between Rock street and Bellevue avenue, from eighty feet to sixty feet; and that when projecting private property north of south boundary of Rock street has been dedicated, the ordinance be passed.

Dr. French moved to adopt. Carried. Messrs. Hamilton, Santee and Miles voting no.

Jean Yarnell was given the floor, and asked that the Woollen Mill ditch from reservoir No. 4 to Figueroa street be examined, as it is likely to break out and injure the Los Angeles Improvement Company's property. Referred to the Committee on Zanjas.

COMMITTEE ON FINANCE reported:

First—Recommendation to file certain reports of city officers. So ordered.

Second—Recommendation to refer to the City Attorney communication from the Board of Supervisors in references to the payment for the Central School lot, to report on the city's power to sell as proposed. So ordered.

Third—Recommendation that the City Treasurer draw a warrant for $100 in favor of the Chief of Police for secret service work, he to render bills for all disbursements. So ordered.

Fourth—Recommendation that hereafter warrants for sprinkling streets be drawn payable out of the street sprinkling fund. So ordered.

Sixth—Recommendation to refer to Special Committee on City Building the bills of J. D. Campbell for $7290 and $270. So ordered.

Seventh—Referred to Council without recommendation bills of deputy assessors. Referred back to Committee on Finance.

Eighth—Recommending warrants for payment of numerous payrolls and bills. So ordered.

Mr. Day moved that the Fire and Water Committee have portholes in west wall of engine room in new city city building for ventilation. Carried, only Mr. Brown voting no.

Mr. Hamilton moved that Committee on Land see if they can purchase a ten feet strip on west side of city building for an alley. Carried.

Mr. Brown moved that Committee on building arrange skylight of Council Chamber so as to ventilate. Lost. Messrs. Day, Holbrook and Velair voted no, not desiring any fresh air.

Adjourned at 5:10 to 2 p. m. to-day, with a big amount of business to tackle.

SAN DIEGO'S PENINSULA.

Stuart Stanley's Views on its Development.

[In San Diego Union of July 8.]

When I came down here from Los Angeles in December last I pointed out the best mode of utilizing the Peninsula, and repeated these views on any occasions.

I got but little encouragement at the time, but now there seems to be some chance of seeing them acted upon.

I now hold, and then held, that the purchase of the Peninsula should be followed by its immediate development, that is to say:

1st. Establish a steam ferry between San Diego and that limb of the Peninsula opposite the town—a distance of about fifteen hundred yards.

2d. Run a tramway direct from the landing place, across the Peninsula, to the ocean bach—a distance of about two thousand four hundred yards.

3d. Run another tramway at right angles to the former and along the Peninsula, between the ocean and the bay.

4th. Sell the lands in blocks of about two acres.

5th. Build a large hotel with detached cottages for families.

6th. Erect, as at Ontario, a few masts bearing the electric light, and this done, it would not be too much to say that we should have the finest watering place on the American continent.

Because you have here such a climate, all the year round, as can be found in no other country. The climate of the Peninsula, from the unique position and peculiarity of the latter, is milder and more equable than that of San Diego itself. Abundance of fresh water can be found at a depth of only a few feet below the surface. The contrast offered by the majestic rollers of the Pacific and the placid bosom of the bay is singularly sharp and striking; the views on all sides are such as have seldom been equaled,—never excelled; and, as irrigation is easy, the invalid and pleasure seeker could here find that combination which we have vainly sought in Europe, viz: The green Helvetia, under the sky of Calabria, with the silence and solemnity of the East.

BANNING

COLONY.

LOCATION:

Banning, San Bernardino County California, on

Line of Southern Pacific Railroad, 7 miles directly East of Los Angeles Railroad running directly through center of tract.

ALTITUDE:

2500 feet above sea level.

WATER:

Absolutely pure, clear and soft, and abundance of it.

ATMOSPHERE:

As near perfect as can be found on the globe.

SOIL.

Rich, deep and adapted to the production of the peach, apricot, pear, apple, nectarine, plum, prune, raspberry, blackberry, strawberry, gooseberry, cherry, and the entire, grape family, both raisin and wine.

Depot, express and postoffice, store, meat market, good school, fine Union church and the best country hotel on the Pacific coast.

The above are some of the advantages this colony possesses, and the managers are all reliable business men, and never offer land in this colony for sale to actual settlers, and to those who come to California seeking homes, as well as to those already in the State. We say come and examine land and water before you purchase elsewhere. Call or address, Or, at Banning Colony Office, Banning, Cal.

Hops.

NEW YORK, July 14.—Hops have not been as active as in ten years as now. The clearing prices are from the current number of Weekly Wool's:

Ready sale, New Yorks, best, 15@16c; medium, 13@14c; low, 8@9c; Eastern, Michigans, 8@9c; Yearlings, crop 1884, 7@8c; Pacific Coast, choice, 8@9c; fair to prime, 6@7c; Bavarian, 10@11c; Canadas, 8@9c; Bohemians, 20@30c. Hops cannot be raised in this State for less than 10c, but they can on the Pacific Coast owing to the cheapness and greater fertility of the soil there.

The Union Herald says: There are only six days to the time for new crops. If the hop-pickers move than now forward, a large share will then be worth only 10c.

The entrance fee 10 per cent of purse in both running and trotting races, to accompany nomination.

National Association rules to govern trotting; but the Board reserves the right to trot heats of any two classes alternately, if necessary to finish any day's race, or to trot a special race between heats. A horse making a walk-over shall be entitled only to the entrance money paid in.

In all races, entries not declared out by 10 o'clock of the preceding the race, shall be required to start.

Where there is more than one entry by one person or in one interest, the participator there they are to start must be named 48 p. m. of the day preceding the race. No added money paid for a walk-over.

Except as otherwise specified, running races will be conducted under the rules of the Pacific Coast Blood Horse Association.

Non-starters in running races will be held for entrance money. Rule 3.

Racing colors to be named in entries.

In trotting rules, drivers will be required to wear caps of distinct colors, which must be named in their entries.

All entries close with the Secretary, September 1st.

If two horses are permitted by consent of the Directors to start, their third money reverts to the Association.

Horses entered on the field or any part thereof, is entitled to first money only.

All moneys in purses will be divided, 60 per cent to the first, 25 for second and 15 per cent to the third.

Entry blanks and racing rules will be furnished upon application to the Secretary.

All races will be called at 1 o'clock sharp.

BRIEFS.

The Los Angeles sails north to-day.

Officer Keary was better yesterday.

Three arrests yesterday, all drunk and disorderly.

The Sheriff's office wants an owner for half of a double harness.

The Rifle Club takes its weekly shoot at the City Gardens to-morrow.

No deaths in the city yesterday. Three were reported from the country.

Track-laying began on the San Gabriel Valley Railroad yesterday morning, as promised.

Council will finish up yesterday's business this afternoon, if a quorum can be corraled.

According to the ordinance passed by Council yesterday, the city prisoners will have to work.

A railing now shuts off the sacred precincts of Council far from the madding throng of the lobby.

The window space of the stamp room at the postoffice has been much increased, to the convenience of the public.

Officer Rulo, who was shelved for forty days by injuries to his leg by being thrown from a horse, is on duty again.

Prophet Potts has made good his claim to Elijah's mantle by bringing to the TIMES office a fine cluster of Lisbon lemons.

The Mayor's court in the new city building is nearly rigged out, ship-shape and Bristol fashion. It is a very attractive hall.

Filed for record yesterday: 38 deeds, 5 mortgages, 5 releases, 5 miscellaneous instruments. Marriage license: F. Rios, J. Monreal.

The Evening Union promises to "keep up its lick" right along, and furnish all the afternoon news. Enlargement is expected very shortly.

Lionel Browning, of North Anaheim, is erecting a large winery. J. Hartung and L. Schorn are putting up similar establishments in Anaheim.

W. A. Williams was arrested on Spring street, yesterday afternoon, by Officers Davis and Rulo, for being drunk and disorderly, and for insulting ladies.

Justice Austin dealt exclusively with battery cases yesterday in the criminal line. Two belligerents were fined respectively $50 and $15, the former going to jail, the latter diving into his pocket. A certain Jane Doe, who spanked a neighbor's child with a shingle, had her investigation set for Friday.

So many people are out in the mountains pleasuring that there is said to be a great shortage in lucrus. A party about to start up the Arroyo Seco trail have raised the country from Los Angeles to the San Gabriel cañon without finding a donkey.

Thos. M. Reynolds, better known as "Shorty," died at 12:30 this morning in the city jail, whither he had been sent on a drunkenness. "Shorty" was about 50 years old, and had resided here about 15 years. In former days he was a stage-driver up north. He had no family. Cause of death unknown.

Sixty-nine applicants presented themselves at the Normal School yesterday, and took the examinations for teachers. Over five-sixths were ladies. They were examined in spelling, arithmetic and grammar. The result of the examination will not be known till the last of the week.

PERSONAL.

H. Z. Osborne, of the Express, has returned from his protracted sojourn up north.

Elisa Longley, phonographic reporter and an old newspaper man of Cincinnati, is in the city to remain at least a year.

George McKibbin has been engaged at the Ocean House, Santa Monica, and will be pleased to meet all of his old friends.

C. L. Hargist, Karl Kurtz and Herman Lichtenberger returned yesterday from a pleasant trip through the northern portion of the State.

J. W. Gardner, of Santa Ana, returned day before yesterday from an extensive trip through the East. He remained some months in Boston.

Edward T. Cook, of Phil. Hirschfeld's store, and Miss Mary E. Woods, of San Diego, were married at the latter place Monday. The happy couple have arrived in this city and will remain here.

At the St. Elmo: E. Goldsmith, Mrs. Dearing, Mrs. Nuisan, San Francisco; W. P. Smith, M. Reynolds San Pedro; T. E. Langley, A. W. Towne, Riverside; W. M. Bernhall, San Francisco; R. McPherson, Orange; D. Halladay, Santa Ana; G.W. Conaway, Sacramento; J. H. Calisher, T. B. Wheeler, New York; C. B. Fleming and wife, Richmond; F. J. Lincoln and wife, Miss Adams, Lathrop; A. Ford and wife, ship Kennebec; S. Caro, San Francisco; F. F. Morrison, Redlands; J. H. Smith, Santa Ana; J. Lyman and family, Council Bluffs; C. Olmsted, New York; R. J. Northam, Anaheim.

Arrivals at the St. Charles Hotel: H. H. Himebaugh, wife and child, Wisconsin; Albert T. Strobridge, Compton; James P. Hixson, San Francisco; D. W. Mead, Ohio; John Costello, Yuma; M. E. Mead, Ohio; John Costello, Yuma; M. E. Davis, San Bernardino; J. W. Galvin, Grand Rapids; Mrs. Wadham and son, Santa Ana; J. G. Ward, Long Beach; D. Hews, Tustin; James Kells, D. D., Cincinnati; O. T. Johnson, Riverside; C. H. Wells, Missouri.

An Able Plea.

There is no need for lawyers in San Diego. The very aborigines are special pleaders, as witness the following documents: The Union says it was submitted to Judge Leonard by four Indians who were to be tried for drunkenness on the Fourth:

SAN DIEGO, Cal., July 6, 1885.

Most worthy and Honorable Judge: We, the undersigned, being brought before your honor on the charge of drunkenness, appeal most emphatically for your mercy and beg most humbly that your honor may be charitably disposed to forgive us this one time, and we will promise most faithfully to return to our work and do better.

Considering that we poor natural human beings, without the advantages of a better chance to develop the more refined and civilized manners of the white man, and being encouraged to participate, through a natural desire to participate in the celebration of the glorious Fourth of July, our smooth hilarity got the best of our limited intellect, and therefor we are brought before your honor with the charge of drunk and disorderly, which we very humbly beg to relinquish and allow us to return to our families and work and we humbly promise to leave town immediately.

He Was Fond of Her.

[San José News.]

A Los Angeles man [Mr. Dolch] pointed a pistol at his wife, a few days ago, and not thinking it was loaded he pulled the trigger. The bullet entered the woman's abdomen, and she died in a few hours. As it is said that the man was very fond of his wife, the incident leads to the conclusion that he was willing she should become an angel.

Confidence Engine Co. No. 2.

Active members of the Confidence Engine Company are particularly requested to be present at a meeting to-night, to be held in the new City Hall.

THE FRENCH CELEBRATION.

The French Colony Commemorates the Fall of the Bastile.

The Fourteenth of July is to the French people almost equivalent to our own Fourth. It was on the former day, in the year 1789, that the populace of Paris enunciated *their* Declaration of Independence — a declaration whose page was written in blood. Goaded to desperation by the enormous oppression which ground them down, they assailed the atrocious Bastile, and left its massive walls in ruin. The anniversary of that day still sets the blood running with livelier thrill in the veins of every son and daughter of La Belle France, wherever now residgnt.

The French colony of Los Angeles, which is numerous and includes many well-known citizens, gave the anniversary due celebration yesterday. The day was ushered in with a salute. At 10 a. m. a procession marched from Aliso street, down Los Angeles to First, to Main, to Plaza, thence countermarching to the hall of the Circle Francaise, where interesting exercises were held. The "Marseillaise" was feelingly sung by Madam Marra, the large audience joining enthusiastically in the last verse. Louis Sentous, President of the Day, made an able speech, which was warmly applauded. A patriotic song was well sung by M. Laurent Fanton. The oration of the day was delivered by M. Toussaint Lestrade. M. Leon Loeb, Consular Agent of France, and Honorary President of the Day, made an appropriate address. Patriotic songs by the audience were followed by a grand banquet. About 8 p. m. there was a pleasing display of fireworks from the balcony of the hall (the old Merced Theater) and an immense crowd packed Main street to watch the whizzing rockets and sputtering Roman candles. A large pedestal had been erected on the balcony, and on this a stalwart Frenchman, appropriately draped, posed in representation of Bartholdi's noble statue, while red fires below gave a striking effect.

The fire works over, all repaired to the hall, where a grand complimentary ball was tendered by the Cercle to the French colony. The hall was crowded, and the festivities lasted far into the morning. Following were the directors of the ball:

Reception Committee, Leon Loeb, Mayor Spence, Wm. Lacy, E. F. del Valle, Jean Sentous, Martin Biscailuz, Dr. H. Nadeau, Dr. Ch. de Saigeshy, Ed. Roth, P. Beaudry, C. Decommun, G. d'Arcole, F. L. Riche, George Denis, C. Gasegne, A. Goudran, L. Mesmer, Ph. Garnier, H. Clary, A. Vignolo, G. Pelissier, B. Mesplon.

Committee of Dances, G. Michaux, G. Gilly, L. Vignes.

Library Meeting.

The Board of Trustees of the Public Library met in the Council chamber at 2:20 p. m. yesterday, nine members present.

Minutes read and approved.

A number of bills were audited, and Mr. Holbrook having been dragged in by the police, the same were ordered paid.

The Librarian presented her report for June:

Books loaned during June	1,015
New books added during June	18
Bound	20
Total receipts for month	$83 20
Total expenses	91 25
Balance	$2 04

Received and filed.

Miss Gavit, the librarian, was granted four weeks' leave of absence—two for herself and two for her assistant.

Adjourned.

Direct From Liverpool.

Capt. Alanson Fort, of the ship Kennebec, paid the TIMES the compliment of a call yesterday. Capt. Fort left Liverpool March 1st, Queenstown March 8th, and arrived at San Pedro on the 8th of July, having had a remarkably fine passage. The Kennebec brought a partial cargo of coal for the Southern Pacific Railroad Co., and about 800 tons of freight for Hellman, Haas & Co., the miscellaneous cargo being the first direct shipment from Liverpool to San Pedro. As the Kennebec is a magnificent new ship with a capacity of 2,024 tons, why should not our farmers club together and load her with wheat and send the cargo direct to Liverpool?

San Diego's Prospects.

Councilman Santee has returned from San Diego, having recovered from the bruises to his shoulder caused by a runaway, but looking brown as an Apache. He reports that there is a considerable boom in the City of Bayo-Nunez, and that a good deal of real estate has changed and is changing hands. The city has great expectations, and he believes some of them will be realized. They are advertising ably, and the completion of a transcontinental route to their place, this fall, will probably bring out far more visitors than they can accommodate—which will naturally be to the benefit of Los Angeles.

The Chinese Can Stay.

The petition framed by Coroner O'Donnell and circulated by the Anti-Chinese Union, demanding that Council remove the Chinese outside of the city limits, has been largely signed. As prudent people have suspected all along, the trouble of circulating it turns out to be love's labor lost. The City Attorney gave his opinion on the matter to Council yesterday, and it effectually blocked the agitation before perceptible in that body. His statement will be found in the Council report.

Caledonian Club.

At the regular meeting of the above club, held last night in their rooms, First street, nine new members were admitted. Mr. Chas. E. Gault was elected permanent Secretary. Applications for membership are coming in from all parts of the county. After the regular business was disposed of, several of the members present contributed to to the evening's enjoyment by song and recitation, and music on the bagpipes and flute. This society promises to be very popular.

Monte Vista.

This new colony at the foot-hills is still the attraction. Abundance of water in dry years, the best system of distribution, choice land, delightful climate and scenery, at reasonable prices is what wins in California. Another company will go up to-morrow, and all wishing to go should report to-day for seats at the office of Washburn, Gay & McKee, 19 West First street.

Off for the Mountains.

A party composed of P. W. Dooner, L. M. Stratton and James Burdette will start next week for a trip to the timber country, on the north of the Sierra Madre mountains, going by the Arroyo Seco route. They expect to hunt the red-nosed deer and call the California lion a liar.

British War Ship.

A British gun-boat, H. M. S. "Satellite," Captain Theobald, arrived at San Pedro on Saturday afternoon, and left for San Francisco on Sunday. The "Satellite is accompanied by two torpedo boats, and put into San Pedro to supply them with coal. She carries eight guns and a crew of about 300 men. Tonnage, 1490; horsepower, 1110.

Commissioner for New York.

G. A. Dobinson has just received a parchment, under the hands and seals of the proper authorities, constituting him Commissioner of Deeds for the State of New York. This in Los Angeles is quite an important trust. Mr. Dobinson is already Commissioner for Arizona, a position which he has held for about ten years.

Horticultural Commission.

At the regular meeting of the Horticultural Commission yesterday, in addition to the regular routine work, the following rules were adopted:

Ordered that all inspectors be instructed to report all nursery stocks, tree depots or importations of trees, shrubs, ornamental trees, roses, vines, etc., to this Commission.

Also that all such nurseries, tree depots and imported stocks be inspected by this Commission in connection with the inspectors of the several districts.

Also ordered that railroad and express agents be requested to report all nursery stock, trees, etc. received and to whom consigned, that the same may be at once inspected.

The work of disinfecting orchards is proceeding in many places. Something over one hundred infested places have already been reported, and the work of cleaning has been commenced. The work so far done has been, in most cases, very satisfactory. The work would be very much assisted if the people would make complaint of infected orchards. These complaints are only for the use of the Commissioners and are not made public.

LETTERS FROM THE PEOPLE.

[This is the TIMES-MIRROR'S Public Forum. Those who would stand thereon must first give the editor their real names and be responsible for their opinions and statements.]

Crime-Breeding Places.

To the Editor of the Times—SIR: I have now been in California for near one year, and by reading the criminal reports of murders, assaults, suicides, etc., I find that about three-fourths of all our criminal court, police and coroner's expenses have to be endured and paid by the toilers of our county, in consequence of liquor saloons. I also notice your remarks on the commuting of Jack Lennox's sentence by Governor Stoneman. Mr. Editor, there is no person whose sympathy was not aroused in behalf of Capetti in that dreadful races for life; they feel as you do in regard to his punishment, and perhaps feel to curse a court procedure that could not bring such criminals to justice in less time than one year. And although I believe a plea of insanity is good for every drunken man for his crimes, yet I do not want our lives placed at their mercy, but would punish them as any other person, adding punishment for he extra crime of getting drunk. But what are we to do with men who sell, and in every way make saloons attractive for the youth of our country? Should they not be closed up? Should they not at least pay the expenses and loss to sober citizens? And what of the gentleman who give them license and take part of the profit? How can the men who voted the saloon license from which Jack Lennox started, view that terrible case and say, "I am clear?" It used to be thought spirit of some kind was necessary, but of late years no one claims a necessity for its use. And when I hear the music and noise on the most prominent streets of our beautiful city, calling in travelers and young men, I can but think of the poverty and heartaches caused in the still homes of persons thus turned aside from business. And while we rejoice to see emigration, wealth, schools and churches grow up among us, are we not permitting the saloons as parasites to eat up the wealth and undermine the morals and educational enterprises of this heaven-favored land?

Respectfully, BENJAMIN WALTON.
Compton, Cal., July 12th, 1885.

The Inconsistency of Dr. Capel.

To the Editor of the Times—SIR: I will be brief, if at the expense of abruptness. On Wednesday evening Dr. Capel said "that woman is not fit for the battle of life, but to cherish the delicate and affectionate side of life. Woman supplements man's physical a length by delicacy and tenderness. *Neither is complete without the other.* The character of man and the character of woman dovetail the one into the other so as to give the utmost strength. *Each has deficiencies which the other would make up.* The result of such reasoning is plain. Dr. Capel and all Catholic priests are only "half made up" and never will be perfect men until they take auto themselves wives like other decent, sensible men. Dr. Capel is an Englishman, and like a great many more of them, has come over to America to enlighten us.

Some years ago another Englishman came over on a mission of mercy also. His name was Dr. Blackie. He visited several of our jails—among them "Blackwell's Island," New York. This is what he had to say about it: "In the department allocated to criminals in the ordinary sense of the term, we saw the same and nationality and other particulars of the inmates along the corridors which we traversed. If the truth must be told, the Emerald Isle had the credit of almost every second man and woman in the place." It was said that the late R. C. Archbishop Hughes, of New York, was once entertained by the commissioners of the Island, and that on his health being drunk, some one remarked that he was "well entitled to the honor, as one-half the prisoners on the Island were under his jurisdiction." Does Dr. Capel mean to tell the American people that their orphans would be better reared with families whose representatives crowd our jails than in our well-managed institutions expressly built for that purpose?

I am, yours etc., BONAX.
Los Angeles, July 10th.

The City's Water.

To the Editor of the Times—SIR: Noticing in your paper that "Health Officer Baker is moving to have a committee of the best physicians to analyze the water used by our citizens for domestic purposes," I beg leave to express the wish that he will do *nothing of the kind*, for I question if there is the chemical knowledge with our "best physicians" to perform the task, although they may be nearly all professors in our local medical college. The test should be made by a chemist known to be a skillful analyzist, who makes the business a specialty. The Water Company can easily buy off a whitewashing report.

It is rumored that such an analysis was made, but it was decidedly against the healthfulness of the water, that interested parties paid a large sum to have it suppressed.

The water drinks nothing but water. During a long life and experience in various cities, he is decidedly of the opinion that the water furnished this city is the most loathsome and unhealthy of any water before offered the citizens of any community. The fact that it is so impure and filthy doubtless is a reason used by the directors of the Water Company to justify their conniseurs for charging such exorbitant prices for their delectable compound.

Surely no temperance community could flourish when to be a teetotaler one is compelled to use such a loathsome concoction.

Don't let any local chemists whitewash this article, but let there be a fair analysis made by a chemist who understands the business and cannot be under the influence of the water ring of this city. If funds are needed for the purpose, I will contribute my share towards the expense. A VICTIM.

A Respected Burro.

The Ventura Democrat records with regret the demise of a venerable burro. It says:

There was no animal in this locality better known or more highly respected. He had been a prime factor and beast of all work for hunting and fishing parties for years, but the venerable burro has gone on his last hunt, and passed in his checks, as it were. He was out with the Newby-Orange hunting party, and was bitten by a big rattlesnake and survived the bite but a few minutes. The reptile was killed, and was found to be one of the largest of his species, and sported thirteen rattles.

City Board of Equalization.
